

SAVE OUR VITAL HOSPITAL SERVICES

SAVE OUR NHS

Your Essential Health Services are under threat
and the future is far from certain.

Our NHS is at breaking point

Hospitals Services everywhere are under so
much pressure that they are struggling to cope.

There is a very real chance that essential hospital
services such as **A&E, Stroke, Maternity, and
Emergency Surgery** could soon be transferred out of
South Tyneside and into Sunderland increasing the
pressure on the already **crowded Royal Hospital**

Sunderland & South Tyneside health bosses have said
they no longer will be able to provide all services at
both South Tyneside Hospital & Sunderland Royal – **this
means you may have to go to South Tyneside for some
of your hospital services and appointments.**

**Access to health care is a right of all in a
modern society, and we demand that it must be
guaranteed.**

**South Tyneside & Sunderland
Trades Union Councils**

Act Now before it's too late! – Have your say – Join Us!

Our NHS in Crisis

What we stand for is that health care is a right! We demand that locally accessible district hospitals with a wide range of properly funded acute and emergency services are retained.

We demand the restoration of the duty of government to provide and fund a comprehensive acute and community, physical and mental health service across England to all communities.
