

# Save South Tyneside Hospital Campaign

## **March to Defend Our Hospital March for the *NHS***

We are calling on the people of South Tyneside & Sunderland to campaign against the government's austerity cuts agenda including its "Sustainability & Transformation Plans", which will result in the loss of significant services from our hospital as its acute and emergency services are at risk of being moved to Sunderland. This will also impact services in Sunderland. Do you care about your hospital? We need our NHS! We need (and have a fundamental right) to access local, free, high quality acute hospital services. Please fight before its too late, its not a waste of time! By repeatedly mobilising growing numbers of people from increasingly joined up campaigns throughout the county we can break this corrupt agenda.

**Assemble at Haven Point in South Shields THIS SATURDAY (22<sup>nd</sup> October) at 11:30am**, then march with us to the marketplace for a **rally at 12:30pm** and listen to speakers talking about what is happening to our hospital and NHS.

<http://www.savesouthtynesidehospital.org/>

If you can't make it to the demo, *please sign the online petition and spread the word* - good luck!
